## **Baugestión Group will in 2011 inaugurate the construction of 96 new apartments protected with Everon technology.**

The Group Baugestión will in February 2010 begin the construction of 96 apartments next to the residence Plaza Real Gijón. These apartments will have the latest technology in residential care to ensure the safety and comfort of each and every one of the residents. All apartments are equipped with Everon technology.

*"We implemented a management model based on personalized attention within a comfortable building. We want it to resemble as much as possible the home the residents leave behind, although with an improved comfort. This gives a warm and welcoming ambiance and the residents will appreciate the good service that comes with utmost respect and affection"* Says Jesús López, Vicepresident of Baugestión Group.

*"The Group Baugestión focus on specialized attention in all of their centers. The new Homes Somio offer a great step forward by offering a greater degree of independence within each residential complex. At Everon, we want provide solutions with advanced technology to ensure the degree of quality that Group Baugestión need in order to offer adaptive and accurate services to their individual residents."* Says Oscar

Montes, Director of Everon Spain.
